Disturbing the Peace

A solo game of Resistance and Oppression. Earn 4 Victories before your Resolve reaches 0.

Set up

Keep trackers, helper and optional promos outside the deck. Shuffle the 15 core cards, Resistance-side up. Choose each tracker's side using the difficulty table; begin with its starting number upright at the top. Draw three top Resistance cards, then flip the next top card Oppression as your first encounter. Only the top Resistance card of the draw pile is visible.

Choose your difficulty

Set both trackers to Standard. For Easy, flip Resolve to Easy; for Hard, flip Momentum to Hard.

Difficulty	Resolve	Momentum
Easy	3	3
Standard	2	3
Hard	2	2

Resolve cannot recover. Momentum can recover to 3 on either side. Keep your chosen sides throughout play. Earn 4 Victories to win. Expert uses Standard Resolve and Hard Momentum; recover only 1 Momentum per victory bonus. Nightmare also requires 5 Victories. Retreat recovers 1 Momentum in every mode.

1. Face the Oppression

Choose Pressure OR Influence. Spend Resistance cards totaling at least the Oppression target plus Retaliation. Each spent Resistance card must contribute positive power. At Public Smear Campaign, one may use its other printed value. Obey the Oppression rule. You may inspect both sides of your hand.

2. Draw or retreat

Retaliation raises both target values for this encounter. Draw: spend 1 Momentum and take the top Resistance card; the first extra draw against Disappearances is free. Keep it playable beside the Oppression. Each extra Resistance card adds 1 Retaliation to BOTH targets: 2 at Emergency Powers or Mass Surveillance, 0 at Shutting Down the Press. At most two extra draws. You may draw even if you can win. Retreat: lose 1 Resolve. If alive, recover 1 Momentum (max 3), then choose any hand card as the next Oppression. No victory or carry. At 0 Resolve, you lose. If unable to win or draw, retreat.

Keep the resistance going.

3. Defeat

Pay any Resolve or Momentum cost; at least 1 Resolve must remain. Set the defeated Oppression aside, Resistance-side up. Your fourth victory wins immediately (fifth in Nightmare). Otherwise, flip spent Resistance cards and choose one as the next Oppression. Resolve after-victory effects at their stated time.

4. Take your bonus

If you won and met the Bonus, choose ONE: carry an unused Resistance card, OR recover up to two Momentum (one in Expert or Nightmare), capped at 3. Union Busting allows recovery only. Overpaying Misleading Ballot Initiatives forfeits the bonus. Recovery needs no unused Resistance card. Pay any Momentum cost from Weaponized Lawsuits before recovering.

5. Continue

Keep the next Oppression and any carry. Discard the other Resistance cards; after retreating, also discard the failed Oppression. Clear Retaliation. Draw two top Resistance cards plus any carry. After Gerrymandering, choose top or bottom separately for each new Resistance card. At Voter Purges, resolve the optional swap after dealing, before extra draws. Return the exchanged Resistance card to the top. Extra draws always come from the top.

Trackers and refills

Read the upright top number. Turn clockwise to lose Resolve or spend Momentum; counterclockwise to recover Momentum, up to 3. Never wrap past 0 or 3. At 0 Resolve, you lose. Resolve loss removes no gameplay cards. Refill an empty deck using only ordinary discards, Resistance-side up. Keep your hand, carry, next Oppression and ALL defeated cards out. Trackers and helper never enter the deck.

Optional promo sheet

Mutual Aid, Pirate Radio and Locked Arms are optional. Add any one, two or all three to the 15 core cards; keep every core card. Goals and starting resources stay the same. Digital games use the fixed core.

Print and assemble

US Letter, actual size / 100%, duplex with a long-edge flip. Print pages 1-4 of either card PDF for the 18-card base set. Pages 5-6 contain the three optional promos. Cut on the shared card edges: 2.5 x 3.5 inches. Match fronts and mirrored backs; test one sheet before cutting.
